Carolina Ojeda

CONFIDENTIAL

SCTA-Nikki Milevsky shared that tonight there are a couple of items on the agenda that they believe need to be at the forefront and highest priority for 2024-2025, which is Special Education. SCUSD has failed to provide students with special needs the education they deserve, and which the district is required to provide by state and federal law. Later, we will hear presentations from district staff around the Black Parallel School Board Action Plan and the response to the Grand Jury's investigation. As referenced specifically in the action plan, there is administrative

Community Advisory Committee- The representative shared that this year they truly have a dynamic group of educators, parents and community members, who seek to be the bridge in the gap between those who provide Special Education and those who receive it. They started the year early with board training, and they agreed that the focus this year would be family engagement, and inclusive practices. They have updated the SELPA website to be more user friendly. They have their CAC meetings scheduled for

encouraged to attend. They have added SELPA parent office times

Board Comment:

Member Kayatta thanked staff for the presentation and shared that it really is exciting to be starting a new school year. Member Kayatta wanted to commend all the work that has been done by the Facilities Department

over the summer. For enrollment, we always have a couple of issues and we are still waiting for some kids to get enrolled. Member Kayatta wanted to acknowledge to families that we are working hard on that. Member

Member Kayatta wanted to know that we are rolling out all of our district services, but he also wants to make sure that we are welcoming parents and caregivers into schools as well. There were some public comments around PTAs and families, and Member Kayatta just wants to make sure that we are supporting them, and see if we can get PTAs on Parent Square.

Board Comment:

Student Board Member Chueh-Griffith wanted to know how student voices and Black student voices will be involved in the processes to ensure that these curriculums and subcommittees are also taking into account student perspectives.

Member Rhodes referenced an advanced placement of African American studies program that was seen as a good model for the African American

studies courses and wanted to know if it could lead to something like we

see at Sac State with Black honors. Member Rhodes wanted to know if it

Jeane shared that we have phenomenal educators here with incredible expertise, and she is not reading their expertise in the plan. Member Jeane doesn't know if it's the fact that we have data barriers, and she is hoping that we are investigating why we have data barriers, and how we fix that. Member Jeane didn't see a lot of teacher voice and the staff that are working directly with these kids, and it looks like an independent monitor is giving us this plan. Member Jeane shared that we don't need a

superman to rescue us, we are the ones that can save ourselves. Member Jeane wanted clarification on what the Board was taking action on. Member Jeane shared that we do not regularly update our board policies, and our board policies are incredibly defunct and ancient. One of the huge directives in here is actually for the Board to do that work.

agree to. Member Singh shared that there is nothing that they can really do, but put trust into this process. Member Singh shared that when they're

Member Rhodes finds Member Kayatta's request concerning, because he is making the assumption that the full Board agrees with him, and they have not had proper time to have this conversation. Member Rhodes shared that if this is something that Member Kayatta would like to form, he thinks that

[REDACTED]

showed that they would be receiving quarterly reports from the Independent
